

UBS Wealth Way

Working together to help you pursue what matters most

This approach is not a promise or guarantee that wealth, or any financial results, can or will be achieved.

Liquidity. Longevity. Legacy.

Understanding your life, your wealth and what you want to accomplish is important to how we work together at UBS.

The UBS Wealth Way starts with questions and a discussion that helps us focus on what's really important to you. Then, we can help you organize your financial life into three key dimensions: **Liquidity**—to help provide cash flow for short-term expenses, **Longevity**—for longer-term needs and **Legacy**—for needs that go beyond your own. This UBS approach to wealth management can help you clearly understand where your money is—and why. The clarity it provides can help you stay focused on your long-term goals, no matter what the markets are doing.

3 key dimensions to help:

To help **maintain**
your lifestyle

- Entertainment and travel
- Taxes
- Purchasing real estate

To help **improve** your lifestyle

- Additional real estate
- Healthcare and long-term care expenses
- Retirement

To help **improve** the
lives of others

- Giving to family
- Philanthropy
- Wealth transfer over generations

UBS Wealth Way is an approach incorporating **Liquidity. Longevity. Legacy.** strategies that UBS Financial Services Inc. and our Financial Advisors can use to assist clients in exploring and pursuing their wealth management needs and goals over different timeframes. This approach is not a promise or guarantee that wealth, or any financial results, can or will be achieved. All investments involve the risk of loss, including the risk of loss of the entire investment. Timeframes may vary. Strategies are subject to individual client goals, objectives and suitability.

Let's start by uncovering what's most important to you

We may ask questions that help you think about what matters most to you. Your answers can help inform your financial goals and the plan we create to pursue them.

5

simple questions

What do you want to accomplish in your **life**?

- What are your short-, medium- and long-term goals?
- What tradeoffs are you willing to make?
- How do you define financial success?

Who are the **people** that matter most to you?

- Who do you take care of financially?
- What more do you want to do for them?
- Are they financially prepared for the future?

What do you want your **legacy** to be?

- How do you want to make a difference?
- What portion of your wealth do you want to pass on?
- What causes do you care most about?

What are your main **concerns**?

- Do you have enough wealth to achieve your goals?
- How do you decide between spending, borrowing, saving and investing?
- How do you manage financial risk and uncertainty?

How do you **plan** to achieve your life's vision?

- Who do you turn to for financial advice?
- Do you have a financial plan?
- How do you track progress?

Liquidity—To help maintain your lifestyle

Strategy to help you manage cash flow for near-term spending needs such as:

- Entertainment and travel
- Taxes
- Purchasing a home
- Tuition expenses
- Near-term expenses

Timeframe

The next three to five years—continuously and over time

Why it matters for you

- Understanding your cash flow can help give you confidence to fund near-term spending needs regardless of the markets
- Helps reduce the likelihood of making impulsive investment decisions during periods of market volatility

How we can help

- Review your income and spending to make sure you can cover near-term expenses and make the most of the cash you have
- Introduce conservative investments that seek to provide a stable income stream and a return of principal
- Include borrowing strategies, when appropriate, to help fund immediate opportunities and unexpected expenses
- Account for the changing sources of liquidity as you age:
 - If you're working: You typically don't need to hold investment assets in the Liquidity strategy—other than an emergency fund—if your employment income meets day-to-day spending needs
 - If you're retired: We size the investment portion of a Liquidity strategy to cover spending in excess of income from pensions, annuities, Social Security and similar sources of income

Liquidity might include:*

Securities backed and specialized borrowing
Short-duration bonds Dividends Cash Credit and debit cards
Emergency fund Retirement plan distributions Reverse
Bond ladders IRA distribution Checking accounts mortgages
Pension income T-bills and notes Salary Certificates of deposit
Social Security

* Timeframes may vary. Strategies are subject to individual client goals, objectives and suitability. This approach is not a promise or guarantee that wealth, or any financial results, can or will be achieved. Borrowing is subject to credit or collateral approval.

Longevity—To help improve your lifestyle

Strategy includes the resources and needs over the course of your life:

- Retirement
- Earnings potential
- Healthcare and long-term care
- Purchasing a second home
- College
- Caring for aging parents

Timeframe

Five years from now—and throughout your life

Why it matters for you

- Gain confidence in your future by understanding and identifying your financial needs throughout your life
- Allows you to shift your focus to help meet long-term goals, rather than attempting to outperform the markets

How we can help

- Structure your Longevity strategy to be sized, invested and managed based on your goals and your objectives over your lifetime—with a focus on both funding your income in retirement and to help keep you from outliving your assets
- Incorporate assets with the potential for growth and a focus on longer-term risk—including inflation risk
- Estimate how much you'll need in your life and consider rising disability, long-term care and healthcare costs through the tools available at UBS

Longevity might include:*

Earnings potential Real estate
Long-term care insurance Professional portfolio management Equities and bonds
Private equity 401(k) Disability insurance IRAs
Structured products Pensions Social Hedge funds Education savings
Sale of business or property Security Personal trusts Annuities
Retirement savings Expected inheritance

* Timeframes may vary. Strategies are subject to individual client goals, objectives and suitability. This approach is not a promise or guarantee that wealth, or any financial results, can or will be achieved. Borrowing is subject to credit or collateral approval.

Legacy—To help improve the lives of others

Strategy seeks to help you improve the lives of others through:

- Giving to family and loved ones
- Making an impact on philanthropic organizations
- Providing wealth transfer over generations

Timeframe

Now and beyond your lifetime

Why it matters for you

- Increase confidence by reframing risk based on specific legacy goals and longer timeframes
- Give now to make the most of your gifts to the people and causes you care about
- Gain the satisfaction of knowing you're making a difference

How we can help

- Provide clarity on how to make an impact on others while also considering your ability to meet your own needs
- Identify assets with the potential for growth to generate returns over time—and incorporate tax-efficient gifting and life insurance protection strategies
- Show how your legacy strategy can serve as a blueprint for estate planning, trusts, donor-advised funds and wealth transfer strategies

Legacy might include:*

A word cloud of various legacy-related terms. The most prominent terms are 'Life insurance', 'Philanthropy services', and 'Rental property'. Other terms include 'Charitable trusts', 'Sustainable investing', 'Real estate', 'Hedge funds', 'Private equity', 'Artwork and collectibles', 'Planned giving', 'Second home', 'Private foundation', 'Estate plans', 'Retirement savings', 'Business equity', 'Donor-advised funds', 'Structured products', 'Equities & Bonds', and 'Family Office'.

* Timeframes may vary. Strategies are subject to individual client goals, objectives and suitability. This approach is not a promise or guarantee that wealth, or any financial results, can or will be achieved. Borrowing is subject to credit or collateral approval.

Borrowing using securities as collateral involves special risks, is not suitable for everyone and may not be appropriate for your needs. All loans are subject to credit approval, margin requirements, and margin call and other risks; credit lines may be subject to breakage fees. For a full discussion of the risks associated with borrowing using securities as collateral, review the Loan Disclosure Statement included in your application package/account opening package. **UBS-FS and its Financial Advisors have a financial incentive to recommend the use of securities backed loans, rather than the sale of securities to meet cash needs because we receive compensation related to the loan as well as the investments used to secure the loan.** We benefit if you draw down on your loan to meet liquidity needs rather than sell securities or other investments, and have a financial incentive to recommend products or manage an account in order to maximize the amount of the loan. Important disclaimers

Interests of alternative investment funds (the “Funds”) are sold only to qualified investors, and only by means of offering documents that include information about the risks, performance and expenses of the Funds, and which prospective investors are urged to read carefully before subscribing. This is not an offer to sell any interests of any Fund, and is not a solicitation of an offer to purchase them. An investment in a Fund is speculative and involves significant risks. The Funds are not mutual funds and are not subject to the same regulatory requirements as mutual funds. The Funds’ performance may be volatile, and investors may lose all or a substantial amount of their investment in a Fund. The Funds may engage in leveraging and other speculative investment practices that may increase the risk of investment loss. Interests of the Funds typically will be illiquid and subject to restrictions on transfer. The Funds may not be required to provide periodic pricing or valuation information to investors. Fund investment programs generally involve complex tax strategies and there may be delays in distributing tax information to investors. The Funds are subject to high fees, including management fees and other fees and expenses, all of which will reduce profits. The Funds may fluctuate in value. An investment in the Funds is long term, there is generally no secondary market for the interests of the Fund and none is expected to develop. Interests in the Funds are not deposits or obligations of, or guaranteed or endorsed by, any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other governmental agency. Prospective investors should understand these risks and have the financial ability and willingness to accept them for an extended period of time before making an investment in a Fund. Investors should consider a Fund as a supplement to an overall investment program.

Structured investments are not suitable for all investors given their complexity and level of risk.
